GROUP 2 - INTERMEDIATE: FURTHER INFORMATION

The intention of the Intermediate Group is to offer people who have some previous experience and/or knowledge (or Prerequisite -Introductory Group) in Spiritual, Metaphysical and Alternative Health Modalities.

The selected texts for this group are chosen with a view to offer an opportunity to extend the participant's knowledge, direction and sometimes healing, with a network of kindred spirits in a welcoming, comfortable environment.

For this reason the texts are related to 2 specific areas, providing a more detailed focus and allowing for a deeper exploration of the topics, in the time allowed. The 2 texts do however, link in to each other in a rather interesting way, therefore consolidating new themes, some of which include: Archetypes; Ascended Masters; Crystals; Atlantean Technology; Chakras; Tree of Life; Meditation; Pendulum Dowsing; Channelled Writing; Auras; Psychometry; Affirmations and Prayer.

The participants are required to partake in some individual presentations, according to the text being studied. This is to further incorporate their own interests and also to allow an exchange of these special experiences, extending the knowledge and direction of the group.

TIMETABLE

The format of the timetable is such, that each term the focus will be varied.

I will be encouraging people to commit at least to a block of 4 sessions (1 term) at a time. This will hopefully ensure some continuity and also a harmonious, friendly environment conducive to interesting, thought provoking discussions.

All participants are more than welcome to apply for all 8 sessions i.e. Term 1 and Term 2 at the commencement of the group, (those preferring to do so will receive a 10% discount card and a complimentary gift).
